Delegated Authority and Approval Matrix

Provides synthetic approval thresholds and segregation-of-duties rules for procurement commitments and exceptions.

Document ID	POL-DOA-2026.1	Owner	Chief Financial Officer and Chief Procurement Officer
Version	2026.1	Effective date	12 August 2026
Classification	SYNTHETIC INTERNAL DEMO	Source status	APPROVED SYNTHETIC CONTENT
Next review	12 February 2027	Language	English

AGENT USE AND SAFETY BOUNDARY

Decision support only. Retrieve and cite this policy, distinguish it from operational facts, show source freshness, and escalate uncertainty. Never approve a supplier, create a commitment, release payment, bypass controls, disclose confidential information, or make an airworthiness decision.

DOA-001 Authority principles

Authority applies to the total aggregate commitment, not an individual invoice or PO line. Approval must be obtained before commitment unless the documented AOG procedure applies.

No person may approve their own request, award decision, receipt, and invoice as a single end-to-end chain.

DOA-002 Budgeted commitment thresholds

These values are synthetic demo thresholds and are not an actual airline delegation schedule.

Aggregate value (USD)	Minimum business approval	Procurement involvement
Up to 25,000	Department Manager	Buyer record or approved catalogue
25,001 to 100,000	Department Director	Buyer-led competition
100,001 to 500,000	Business Vice President	Category lead review
500,001 to 2,000,000	Chief Procurement Officer	Formal sourcing governance
Above 2,000,000	Chief Procurement Officer and CFO	Executive procurement review

DOA-003 Unbudgeted and exception approvals

An unbudgeted commitment above USD 100,000 requires both the Chief Procurement Officer and CFO in this synthetic matrix. Lower unbudgeted commitments require the normal value approver plus Finance Control confirmation.

Single-source, conflict, screening, or contract exceptions may require additional approval even when the value is below a monetary threshold.

DOA-004 Change orders and renewals

Aggregate the original commitment, all changes, exercised options, extensions, and closely related purchases when determining approval authority.

A change that moves the aggregate value into a higher band must be approved at the higher band before execution.

DOA-005 Segregation of duties

At minimum, requester, sourcing or buying, receipt confirmation, and payment release must be assigned so that incompatible duties are not concentrated in one person.

System access must enforce the narrowest practical permissions and record all overrides.

DOA-006 AOG emergency authority

AOG commitments up to USD 500,000 require the Chief Procurement Officer and Accountable Executive. Above USD 500,000 also requires the CFO in this synthetic matrix.

Retrospective review does not remove the requirement to preserve safety, supplier-screening, pricing, and evidence controls.

DOA-007 Agent boundary and escalation

The agent may identify the apparent approval route from transaction value and policy. It may not assert that approval has been granted or act on behalf of an approver.

If values, budget status, scope, or related commitments are unclear, the agent must state the uncertainty and refer the user to the accountable buyer.

Escalation route

Escalate unbudgeted commitments, changes that increase aggregate value, conflicts, emergency commitments, and any attempted self-approval to Finance Control and Procurement Governance.
